CHUKWUKA IKECHUKWU

Phase 3 Akwaka Port-harcourt, Rivers State, Nigeria. 09035244873 | Victoez119@Gmail.Com

Objective

Detail-oriented Information Technology graduate with hands-on experience as a Full Stack and Front-End Developer, skilled in React.js, Next.js, TypeScript, and API integration. Eager to contribute to innovative projects by leveraging a strong foundation in modern web technologies and delivering seamless user experiences.

Technical Skills

- Languages: Python , Swift , JavaScript / TypeScript
- Mobile Development: React Native and Flutter for building cross-platform mobile applications
- Web Development & Frontend: React.js, Next.js for modern frontend apps Styling with Tailwind CSS, Styled Components, and Framer Motion
- Backend & Tools: Firebase, Supabase, basic AWS Git/GitHub, agile tools, and version control workflows

Experience

 FULL STACK DEVELOPER (Remote) ChatWazobiaAl October 2023 - Till date

- ✓ Developed and deployed the official website for ChatWazobia AI, delivering a responsive, user-friendly interface with clean and efficient code.
- ✓ Built dynamic front-end features using Next.js and Tailwind CSS, with a strong focus on performance, accessibility, and user engagement.
- ✓ Collaborated closely with backend teams to integrate APIs, ensuring seamless full-stack functionality and secure data transactions.
- ✓ Optimized website performance, achieving faster load times and improved SEO rankings through effective code splitting and image optimization.
- ✓ Implemented version control and CI/CD workflows using Git and GitHub Actions, streamlining deployment and reducing development errors.

FRONT-END DEVELOPER

September 2024 - Till date

Silicon Delta

- ✓ Played a key role in developing a comprehensive school management platform, creating user-friendly interfaces tailored to students, staff, and administrators.
- ✓ Utilized React.js and TypeScript to build scalable, modular components that improved code maintainability and streamlined user interactions.
- ✓ Collaborated closely with UI/UX designers and backend engineers to ensure visual consistency and seamless data integration across the platform.
- ✓ Implemented responsive design techniques, ensuring optimal performance and accessibility across devices and screen sizes.
- ✓ Enhanced application performance by optimizing rendering logic and reducing unnecessary re-renders, resulting in faster load times and improved user experience.

Education

 B.Sc. in Information Technology MiddleSex University, Dubai 2025

 Ordinary National Diploma (OND) in Software Engineering NIIT, Nigeria 2024

Projects

• Zunatech.org

Developed a full-scale website for Zuna Tech, a machinery and product sourcing company offering logistics, procurement, and digital services. The site integrates service breakdowns and business inquiry tools.

⊕ RemoteNext – remotenext1.vercel.app

Built for a remote job and freelance opportunities platform. Designed to help freelancers discover remote work and submit applications with ease.

⊕ Sparkhouse – sparkhouse.vercel.app

Developed a professional web presence for an architecture firm offering both architectural design and interior decor services. Focused on sleek design and service presentation.

Archdemy – archdemy.vercel.app

Another architecture and decor site tailored for a firm showcasing premium design projects, client consultations, and a wide portfolio of interior aesthetics.

Integrated Dashboards

Created multiple dashboard systems for data collection, reporting, and administrative control. These dashboards support analytics, user roles, and real-time data updates.

X SaaS & AmS Projects

Worked as a frontend developer on various SaaS (Software as a Service) and AmS (Admin Management System) products. Designed and developed responsive, fast-loading user interfaces optimized for B2B and internal use.

Sinal Year Project – Al & Web3 Integration

Led the development of a project integrating blockchain technology and AI into a Web3-based system for enhanced user authentication and smart decision logic.

Portfolio & Client Uls

Built multiple modern personal and business websites, portfolio pages, and UI components—many using Next.js and Vercel for rapid deployment and hosting.

Soft Skills

- Excellent communication skill.
- Adaptable and fast learner, capable of picking up new tools on the fly.
- Strong communication, able to work with technical and non-technical teams.
- Proven ability to handle pressure and manage time effectively (especially while balancing academic and professional.
